DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Friday, 04 November 2022 at 06:17 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Low air pollution is forecast across the country, due to unsettled conditions. Pollution could locally be higher than the levels shown due to bonfire celebrations and light winds,

Tomorrow: Air pollution is expected to continue to stay Low for much of the country on Saturday with breezier conditions forecast, but levels may be locally higher than those shown due to events on Bonfire Night.

Outlook: Low levels of air pollution are expected through Sunday and into next week, with unsettled weather conditions forecast, along with strengthening winds.
